Notes:

(The above values have been generated using the definitions accepted by the operators in the document "Mobile Internet Forum MATRIX Draft V14").

**Total number of subscriptions:** Number of SIMs with active Internet service with at least 10Mbytes of data available to be transferred and a monthly charge greater than zero (prepaid or postpaid) on the last day of the given calendar month. (Any SIM with more than one active tariff plan shall nevertheless be considered as a single SIM.)

**Number of subscriptions with data transfer:** The number of SIMs within the total number of subscriptions with at least 1 byte data transfer on the Internet over the last three months.

**Total amount of data transferred:** The sum of the data downloads and uploads by the subscribers as defined above in the given calendar month.

**Average amount of data transferred:** Total amount of data transferred divided by the number of subscribers with data transfer.
